

MateRange

A comprehensive range of silicone and acrylic sealants for D.I.Y. and professional trade use, covering all aspects of sealant applications including glazing and roofing installations as well as general decorating and household sealing jobs.

Size: EU3 Life: 25 Years ← 25% →

Ulti-Mate Builders Silicone

A superior, low modulus, neutral cure builders silicone sealant. Suitable for internal and external applications where the joint movement does not exceed 25% and where the long term durability of silicone is required. It has primerless adhesion to most construction materials and remains permanently flexible for up to 25 years. Conforms to ISO11600-F&G-20LM and B55889-A.

Application: Suitable for sealing around doors and windows and for general building maintenance. It can be used to fix glazing systems, cap beading and glass and also for expansion and joint sealing to precast concrete and brickwork.

Flash-Mate Roofing & Flashing Silicone

A fast skinning roofing sealant that reduces weather ingress, tile lift and noise. Tough, resilient and compatible with lead. Conforms to ISO11600-F-25LM and B55889-A.

Application: Can be used to bond glass and glazing plastics as well as small sections of roofing materials under repair. Ideally suited for sealing roof-lights, conservatories, soffits, glass houses, industrial roofing systems, lead flashings and to prevent tile lifting and wind noise. Also has excellent UV, heat and ozone resistance and sets to tough resilient rubber.

Marine-Mate Aquarium Sealant

A high strength, silicone polymer, sealant and adhesive. Fast curing, non-shrinking, and gives a strong bond that offers good elasticity and joint flexibility. Has excellent adhesion to glass and is completely waterproof making it suitable for permanent immersion in water. Conforms to ISO11600-F&G-20HM.

Application: Suitable for sealing and bonding glass, ceramics and glazed surfaces. It can also be used with wood, metal, plastics and stone but a primer is recommended prior to the application of the sealant. Marine-Mate contains no fungicides or oils which may leach into water. The exceptional translucency of this product makes it ideal for aquarium use.

Glass-Mate Mirror Adhesive

A neutral cure silicone for interior mirror fixing. Ready-to-use, one-part silicone sealant which is non-corrosive and odourless. Has excellent unprimed adhesion on most mirror coatings and has outstanding resistance to heat and humidity. It's properties are unaffected by sunlight, ultra-violet radiation and temperature extremes. This product will accommodate thermal expansion.

Application: Suitable for internal bonding of mirrors, coated glass, glazed surfaces, ceramics, enamel, metals, PVCu, polycarbonate and treated or untreated wood, to most common substrates. **Note:** Not suitable for use in the manufacture of structural glazing.

Lami-Mate Timber and Laminate Sealant

A polymer enhanced, flexible sealant and gap-filler designed for sealing all tongue and groove laminate and hardwood flooring. Stays permanently flexible. Can be over-painted, stained or varnished for colour matching purposes, once cured.

Application: Can be used for draught-proofing around timber flooring to provide an effective dust and air tight seal. It can also be used for sealing around all types of fitted furniture i.e. bedroom and kitchen fittings, laminate worktops, etc. LAMI-MATE is also suitable for sealing glass panels into kitchen unit doors.

Bath-Mate Bath & Kitchen Sealant

A high quality, acrylic sealant with good adhesion to plastic, ceramic tiles and porcelain. Remains permanently flexible and forms a watertight seal to most surfaces that can be over-painted. Contains a powerful anti-fungal compound to retard mould growth. Can be over-painted, stained or varnished for colour matching purposes.

Application: Suitable for sealing around baths, sinks and worktops, where an easy water clean up is required after application. Can also be used as a grout repair.

De-Bond Mate Silicone Eater

Now in new handy applicator bottle - a non-drip gel formula for the complete removal of cured silicone sealant, particularly when silicone has been accidentally smeared over glass, ceramics or counter tops.

Application: For removing old silicone sealant during renovations. It is suitable for use on brick, concrete, metals, glass, PVCu and melamine laminates. Simply brush the remover over the old silicone, allow to stand for at least 2 hours, then wipe clean with a paper tissue or dry cloth and ensure all traces of solvent are removed. Keep some water handy to deactivate any runs. **Note:** Shake vigorously before use.

Build-Mate Building Mastic

An oil based, gunable pointing and sealing mastic for general exterior building use. Offers superior adhesion to all building surfaces and can be over-painted when cured with most conventional oil based paints. Weatherproof in most applications. Sag resistant and low toxicity.
Note: Not suitable for use with PVCu.

Application: Can be used to seal and bed window and door frames manufactured from metal or wood. It can also be used for the maintenance of low rise building joints, seals and flashing and for pointing around precast building materials.

Rain-Mate All Weather Sealant

A flexible, water repellent, general purpose sealant that has excellent adhesion to all surfaces, even when damp. This product can be over-painted and it will not crack, slump or become brittle with age.

Application: Suitable for use on brick, concrete, stone, all metals, painted or bare wood, glass, vinyl and most plastics. Compatible with bitumen and asphalt and ideal for roof repairs in damp conditions (any standing water must be removed before application). Can also be used to seal doors, windows, roofs, cladding and vehicle bodies.

Dec-Mate Flexible Filler

An easy-to-apply, quick drying, interior decorators caulk. Remains permanently flexible and can be smoothed and over-painted within 1-2 hours of application. Has good adhesion to most building materials.

Application: Suitable for sealing door and window frames as well as interior sealing of skirting boards, plastics and polystyrene coving. DEC-MATE is also suitable for sealing interior partition joints around fitted furniture and for repairing small cracks and joints with low movement in plaster and wood.

WP70 Oxime Silicone

A high quality, low modulus, neutral cure silicone for perimeter sealing of external door and window frames. Rapid curing with good adhesion properties and additional PVCu adhesion promoters. **Conforms to ISO11600-F&G-25LM and BS5889-A.** **Note:** For external use only.

Application: For perimeter sealing of external wood, aluminium and PVCu door and window frames and for weather sealing and flexible jointing of infill panels. **Note:** Not suitable for use with aquaria or for use on bitumen or asphalt. Over-painting is not recommended. Risk of yellowing in low UV light situations.

Caulk-Mate Decorators Caulk

A quick drying interior decorators filler that can be smoothed and over-painted within 1-2 hours of application. Adheres to most surfaces.

Application: For sealing and filling gaps and cracks in skirting boards, ceilings, stair risings, interior wooden door and window frames, fitted furniture and light fittings. Also for filling interior cracks and damage in plaster, brick, concrete and plasterboard. Can be over-painted with emulsion paint as soon as a skin forms, after approximately 1 hour. For oil based paints allow to dry completely for 24-48 hours before over-painting. **Note:** Not recommended for external use, for PVCu or in wet areas.

GP200 Silicone

A general purpose, silicone rubber sealant with fungicide, suitable for most sealing jobs around the home.

Application: Suitable for sealing and waterproofing in areas of high humidity. It has excellent adhesion to glass, glazed surfaces, ceramic tiles, many plastics and most paints. It is ideal for applications in bathrooms, shower rooms, utility rooms and general DIY applications including kitchen work tops. **Note:** Do not use on surfaces where water can penetrate through porous materials to affect the bond without first carrying out remedial work. Not suitable for fixing of mirrors or sealing natural marble.

Cove-Mate Coving Adhesive

A high strength, gap-filling, coving and decorating adhesive. Solvent-free, quick grab, and suitable for interior coving and decorative mouldings. It replaces mechanical fixings in a multitude of home improvement applications. Dries to a white finish and can be over-painted once dry.

Application: Ideal for fixing polystyrene and PU covings, skirting boards, architraves and dado rails, etc. It can be used internally on plaster, brick and stone. It is also suitable for bonding work tops to base units and for bonding cork tiles and cork sheet. **Note:** Not suitable for polythene, polypropylene, teflon, nylon or plaster coving.
