Protecta Floor™

Protecta Floor™ is a roll out floor protection offering excellent impact resistance, manufactured from 100% recycled materials. Its slip resistant 'floor hugging' backing ensures it stays in place providing you with an unequalled level of protection in a 'roll out' product.

It can be joined using tape or 'butted up' to cover a whole floor, it can be rolled out in a single width as a 'runner'. Protecta Floor™ Standard will protect against dirt, dust, debris, spills, wet and dry foot traffic and when cleaned can be re-used.

- **QUICKLY APPLIED**

Simply roll out, smooth into place and trim.

- **PRESSURE SENSITIVE**

Requires no additional taping or fixing.

- **IMPACT RESISTANT**

Thick fibre layer creates excellent impact protection.

- **WATERPROOF**

100% waterproof, holds spills and protects against wet foot traffic.

- **REUSABLE**

When cleaned can be rolled up and re-used time and time again.

- Special sizes available to order.

Floor Card Roll

Floor Card is a traditional protection product used widely throughout the House Building industry to protect most surfaces.

It is water resistant, durable and provides outstanding impact protection.

Floor card is ideal for protecting newly laid screed floors as it will allow the floor to breathe during the curing process.

With all joints taped it provides an excellent anti slip surface.

- **QUICKLY APPLIED**

Simply roll out, trim where necessary and tape all joints.

- **FIXING**

Secured using the appropriate adhesive tape.

- **IMPACT RESISTANT**

Will protect against scrapes, scratches and impact damage.

- **BREATHABLE**

Allows newly laid floors to breathe, especially assists the curing process on screed floors.

- **STRONG AND DURABLE**

Once in place will provide excellent protection.

- **SLIP RESISTANT**

Provides a safe walking surface.

- **NON ABRASIVE FINISH**

Safe to use on finished surfaces.

Code	Description	Size
FC100	Standard Floor card Roll	100x1mtr
FC50HD	Heavy Duty Floor Card Roll	50x1mtr

Protecta Shield™

Protecta Shield is a flame retardant embossed anti slip roll out protection polythene.

Suitable for use as a large area floor protector or 'runner', it can also be used as an extra heavy duty screening material with Quickprops.

Protecta Shield provides protection against dust, dirt, light debris, foot traffic and given that it is waterproof will retain spills & splashes.

QUICKLY APPLIED

Simply roll out, cut to length and join with tape where required.

FIXING

Secured using the appropriate adhesive tape, increased grip to carpets can be achieved by adding our Self Adhesive Velcro.

EMBOSSSED ANTI SLIP POLYTHENE

Creates a safe temporary surface, embossing also prevents spills from travelling.

VARIOUS THICKNESSES

Protecta Shield TM is available in four different thicknesses giving a wide range of protection.

VARIOUS WIDTH ROLLS

To enable quick and simple installation.

WATERPROOF

100% waterproof, holds spills and protects against wet foot traffic.

CUSTOMISATION

We can add your company logo and contact details.

Multi Use Red™

Multi Use Red™, is a quickly applied self adhesive film that protects against scrapes, scratches, dirt and splashes. Specially formulated, Multi Use Red™ will remove clean and the obvious colour sends a clear signal that it is protecting a finished sensitive surface.

• STAYS IN PLACE

Being self adhesive, once applied Multi Use Red™ will stay in place ensuring your surface is constantly protected.

• LEAVES NO RESIDUE

Special technology ensures that the adhesive remains on the product and doesn't transfer to the protected surface upon removal.

• INDUSTRIAL STRENGTH

Puncture and tear resistant.

• WATERPROOF

Stops contamination from spills.

• HYGIENIC

Can be swept or hoovered prior to removal, avoids the spread of contamination.
