

Pump in Resin Systems

C-Mix Itw Resin

Polyester Resin - Styrene Free for internal use
Rapid Cure time with Socotec approval

Medium performance

| code | description | size |
|---------|-----------------------|-------|
| CMIX380 | C mix Polyester Resin | 380ml |
| REGUN | 380ml Resin Gun | 380ml |

resin gun

Fischer Fisv Resin

Styrene free Vinylester, quick curing high performance hybrid mortar (contains vinylester and cement)
Specially Designed with longer Gelling time and lower application pressure
High performance Hybrid Mortar for highest loads in all mortar

| code | description | size |
|---------|--------------------------------------|-------|
| FISV360 | Vinylester Resin styrene free | 360ml |
| FIS AK | 360ml Resin 2 part Gun to suit above | 360ml |

Spit Epomax Resin

High Performance Vinylester resin, saves time and money on site.
Now improved for a stronger fix, easier injection and faster curing time.
Styrene free with fast curing time 6mins(setting 6mins, cure 40mins at 20 C)
Suitable for use in Diamond Drill holes

| code | description | size |
|--------|-------------------------|-------|
| EPO380 | Epomax Vinylester Resin | 380ml |
| REGUN | 380ml Resin Gun | 380ml |

Spit Epobar Resin

High performance Vinylester resin with extended curing time designed for rebar fixing and concrete repair.
Suitable for internal and external use, and can be used in wet concrete
Can be used in diamond drilled holes.

| code | description | size |
|-----------|-------------------------|-------|
| EPOBAR410 | Epobar Vinylester Resin | 410ml |
| REGUN | 380ml Resin Gun | 380ml |

Spit Epcon Resin

Extreme performance resin, specifically formulated for extreme rebar and stud applications.
With virtually no odour, New Epcon C8 is easy to inject at low temperatures and is approved for use in wet and diamond drilled holes.

*Pure epoxy-High bond strength:20 N/mm2

*Works in damp and underwater

*Phenol and styrene free

| code | description | size |
|----------|-------------------------------|-------|
| EPCON450 | Epcon C8 Pure Epoxy Resin | 450ml |
| EPCONGUN | Epcon C8 Pure Epoxy Resin Gun | 450ml |

Rawl Resin RM50

Rm50 is a high performance resin that is suitable for use in concrete, and other solid or hollow masonry structures.

This makes it ideal for applications where conventional expansion anchors present problems and comes in a more economical foil tube with separate dispenser cutting back on waste.

| code | description | size |
|---------|-----------------------------|-------|
| RM50RES | Rm50 Rawl Resin in Foil bag | 300ml |
| CFS-GUN | Resin Gun to suit above | 300ml |
