

REST OF BEADS

ARCH STOP BEAD

Arch Stop Beads provide precise, clean finishes and also reinforce the edges of plaster

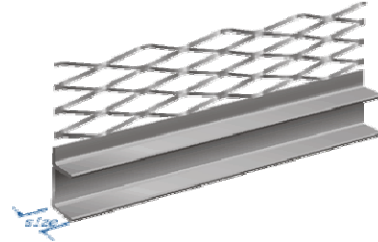

code	Material	Length (m)	Size (mm)
G3ARSB24	Galvanised Steel Arch stop Bead	2.4	3mm
G3ARSB30	Galvanised Steel Arch stop Bead	3	3mm

ARCHITRAVE BEAD

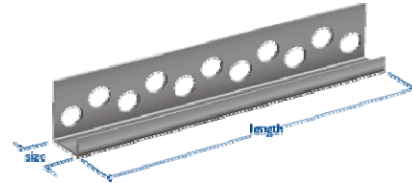

Architrave Beads create a finished edge at the junction of render and facing bricks

code	Material	Size (mm)
GAB10WOF	Galvanised Steel Architrave Bead	10mm
GAB13WOF	Galvanised Steel Architrave Bead	13mm
GAB10WF	Galvanised Steel Architrave Bead	10mm
GAB13WF	Galvanised Steel Architrave Bead	13mm
GAB20WF	Galvanised Steel Architrave Bead	20mm

PLASTERBOARD EDGE BEAD

code	Material	Length (m)	Size (mm)
GEB953	Galvanised Steel plasterboard Edge bead	3	9.5mm
GEB12530	Galvanised Steel plasterboard Edge bead	3	12.5mm
GEB1530	Galvanised Steel plasterboard Edge bead	3	15mm

PLASTIC BEAD

Plastic Bead is resistant to impact damage and cracking. It is extremely rigid yet resilient and tough enough to survive rough handling on site. It also has the advantage of being free from corrosion and very safe to use as there are no sharp edges.

code	Material	Length (m)	Size (mm)
TLPAB23	Plastic Angle Bead	2.5	2/3mm
TLPAB610	Plastic Angle Bead	2.5	6/10mm
TLPAB812	Plastic Angle Bead	2.5	8/12mm
TLPAB1319	Plastic Angle Bead	2.5	13/19mm

code	Material	Length (m)	Size (mm)
TLPSP1012	Plastic Plaster Stop Bead	2.5	10/12mm
TLPSP1517	Plastic Plaster Stop Bead	2.5	15/17mm
TLPSP2022	Plastic Plaster Stop Bead	2.5	20/22mm

code	Material	Length (m)	Size (mm)
TLPARB	Plastic Arch Stop Bead	2.5	2/3mm

code	Material	Length (m)	Size (mm)
TLPERS1222	Plastic External Render Stop Bead	2.5	12/22mm
